

FOR IMMEDIATE RELEASE

2019 Farwest Show offers seven classes for pesticide recertification credit

Portland, Oregon (August 6, 2019) — The 2019 Farwest Show will offer seven classes that are eligible for pesticide recertification credit hours as part of its continuing education program. Experts from across the industry will cover various topics to include sanitation, bio-control, weed management and boxwood blight. Classes will be delivered in English with Spanish translation available, or Spanish language. The show is set for August 21–23 at the Oregon Convention Center in Portland, Oregon.

Registration for recertification credits is required. Two different pesticide class pass options are available for attendees. The three-day pesticide class pass (\$119) offers six hours of recertification credit taught in English with Spanish translation, and one hour that is Spanish-only as well as a 3-day trade show pass. The one-day pass (\$49) offers two hours of credit on Wednesday and Friday, and three hours of credit on Thursday as well as a three-day trade show pass. Each pesticide pass holder will also be able to access the Spanish-only seminars.

Online registration is available at <https://farwestshow.com/register/>. For complete details and times on all pesticide credit classes, visit https://farwestshow.com/events/category/seminars/list/?tribe_paged=1&tribe_event_display=list&tribe_eventcategory=65

The Oregon Association of Nurseries (OAN), based in Wilsonville, represents nearly 800 wholesale growers, retailers, landscapers and suppliers. Oregon's ornamental horticulture industry is one of the state's largest agricultural commodities, with annual sales of \$947 million. Oregon's nursery industry is a traded sector; nearly 80 percent of the nursery plants grown in Oregon are shipped out of state. For information, visit www.oan.org or call 503-682-5089.

The Farwest Show, the largest green industry show in the West, is produced by the OAN, a trade organization that represents and serves the interests of the ornamental horticulture industry. Any revenue realized by the OAN is reinvested into the industry through education, research, marketing support and government relations.
